Bad Position. Cincinnati, Jan. 22.—Sensational reports were published here today of an alleged shortage in the books of Theodore Braemer, who resigned last Sunday as secre tary and treasurer of the J. H. Schroth
Packing company. The story, as first
published, alleged a shortage of from
\$160,000 to \$400,000, extending over a period of twenty years, and declared that Braemer had turned off all of his property and chattels in trust, pending an examination of the books by experts. Braemer declined that there was any defaication, but admitted that he had turned \$72,000 in personal property over to Harian Cleveland, his attorney and Joseph W.

New Light Is Thrown on Subject by French.

Paris, Jan. 22-In view of the statement made by Lord Cranborne, British under secretary for foreign affairs, in the house of commons Monday, on the sublect of representations made to Great Britain before and after the outbreak of the Spanish-American war, and the dispatch of the Associated Press from London yesterday on the same subject, the correspondent of the Asociated Press here and received the following explaintions, which throw a somewhat differ-

her favor. Great Britain took the same attitude on France and the other powers. She neither refused or consented to join in collecting action. All the powers were esitating until they ascertained the intentions of the others. Russin settled the matter by the late Count Moravleff a blunt rejection of the proposal. Subse-quently, after General Woodford's conference with the Spanish premier and Senor Gulon, the foreign minister, at which the latter indicated the extent of the surrender Spain was willing to make to the United States' demands, the Austrian government, believing Spain's usr-render was sufficiently complete to satisfy the United States, instructed its ambassadors to propose to the European governments that a note be presented to Washington, urging that the United States accept Spain's offer and avert war. The Spanish ambassador in London saw A. J. Balfour (the first lord of the treasury, who must at that time have been acting as secretary of state for foreign offairs during the absence of Lord Salisbury at Beaulieu, France) who promised to insrutet Lord Pauncefote to act nione or with his colleagues with a view to maintain peace. No action was defi-nitely agreed upon, although Russia, France and Germany were disposed toward a movement which would avert an outbreak of hostilities. A few days be-fore the war, however, it was declared state that they expected, after the meet- that Mr. Balfour had raised objection to the differences would be settied without the matter ever becoming public.
